

Creating and Editing Digital Media

2pm, Monday 8th February 2021

10am, Wednesday 10th February 2021

6pm, Friday 12th February 2021

This session will introduce volunteers to good basic photography skills, and easy, cost-free ways of editing digital photographs and videos using our computers, tablets or mobile phones.

No fancy camera equipment is needed!

Through engagement with community experience and national best practice this project will empower communities to create exciting, interesting digital media that enhances audience engagement and shows communities' own views of their heritage spaces.

By learning new skills and sharing existing ones each community will be able to tell its stories in new ways.

No IT ability is needed to join in. Separate support in improving particular skills can be provided to all who want it.

Some of the activities we'll be talking about will require access to a computer, some will require a means of taking digital photographs.

Start	Introduction by Viv Cooling, Local Community Officer
40 min	Group introduction
	Photography Equipment
	How to take good photographs
	How to take good videos
	Where to keep files
	Copyright, GDPR
10 min	Break
50 min	Why might we want to edit photographs or videos?
	Using Irfanview on a computer to edit a photograph
	Using a mobile phone to edit a photograph
	Using Windows 10 suite on a computer to edit a video
	Using a mobile phone to edit a video
